

Autoprint 1520 COLT

Priceless Performance.
from compact machines that are Priced Less

26 Years of Excellence.....

Over 11400 machines installed world wide.

Autoprint has the distinction of pioneering the manufacture of sophisticated mini-offset printing machines and other post printing machines for the printing industry.

Autoprint today has emerged as the leader in the dynamic and demanding printing industry. Building on its learning and experiences, Autoprint evolved a technology at its own R&D Centre. The result was a range of small printing machines and large size post printing machines suitable for big offset printing units and packaging units

Autoprint 1520 Colt, small offset printing machine with over 578 installation is an excellent single colour three cylinder offset printing machine with suction feeder, which can print various types of jobs using direct offset master or plate. Autoprint 1520 Colt is a new generation small offset printing machine which is highly suitable for entry level printing entrepreneurs, DTP Units, large Xerox and screen printing units as well as small enterprises.

The range of Autoprint small offset printing machines are known throughout the world for reliability and performance. The latest Autoprint's 1520 Colt single colour small offset printing machine is widely accepted and appreciated for its reliability and user friendliness.

Features

- Front Loading
- Three Cylinder Chain Delivery
- Side Lay Registration
- Suction Feed
- AC Drive
- No Sheet Detector
- Electronic Counter
- Emergency On / Off Switch
- Unique Dry Compressor
- Gear Driven Oscillators
- Swing Type Ink Duct / Tank
- Speed Set Plate Clamps

Technical Specifications

Maximum Paper Size	: 380 x 508 mm
Minimum Paper Size	: 125 x 175 mm
Maximum Printing Area	: 357 x 485 mm
Paper Thickness	: 30 to 300 gsm
Blanket	: 4 ply Rubber Blanket, 1.9 mm thick
Gripper Margin on Paper	: 8 to 10 mm
Gripper Margin on Plate	: 32 mm (1.25")
Gripper Bite	: 4 mm
Plate Thickness	: 0.05 to 0.2 mm
Direct Offset Master Thickness	: 100 micron
Inking Unit	: 9 Rollers including 2 Oscillators, 2 Form Rollers
Dampening Unit	: 4 Rollers including 1 Oscillator, 1 Form Roller
Main Drive Motor	: 1 Hp 230 V AC Three Phase (Connectable to Single Phase Power Supply)
Compressor Pump Motor	: 1 Hp 230 V AC Single Phase
Speed	: 1500 to 5000 iph
Physical Dimensions (L x W x H)	: 1420 x 1165 x 1300 mm
Gross Weight	: 1250 Kg approx. (packed)
